- **Sleuable**
- **Wallmounting**
- **IP20**
- **Lamp(s) not included**

The ENZO impresses with its minimalist and discreet design and skilfully sets the scene for your interior design. Wall lights are ideal for optimally illuminating certain areas. Whether as a reading light next to the bed or as accent lighting in the living area, the modern luminaire is versatile and can be easily combined with different furnishing styles. The flexible use of the wall light is rounded off by the FLEXconnect feature. This makes the luminaire suitable for permanent connection both via the cord switch and directly without a cable feed. The wall light is designed in matt black and can stylishly complement modern colour concepts. The use of LED light sources is recommended for energy-saving lighting. These are an ideal alternative to conventional halogen light sources and offer high light quality and energy savings of up to 80%. With LED light sources, you also benefit from a long service life and low heat generation while protecting the environment.

Material construction

Metal · Black mat
Metal · Black mat
