

Wall lamp

ESQUEL – R22261142

incl. 1x SMD LED, 4,5W · 1x 290lm, 3000K

- **Motion sensor**
- **Rechargeable battery operated**
- **IP44**
- **Solar**

Solar lights - a convenient alternative to a fixed power connection and ideal light for the home and garden. Thanks to the solar panel on the ESQUEL outdoor light, the light from the sun can be captured and converted into electricity. This saves energy and allows you to place the outdoor lighting where light is needed without the need for a power connection. For optimum lighting, the LED outdoor light is equipped with a motion sensor that has a detection angle of 90 degrees and a range of 6-8 metres. The light duration of the sensor is around 40 seconds. With IP44 protection, the 12 x 18 cm wall light is protected against splashing water and is therefore suitable for outdoor use. The solar light has a light duration of 1 hour with a charging time of approx. 8 hours. The anthracite-coloured design can be combined in a variety of ways and ensures a modern appearance.

Material construction

Plastic · Anthracite

Product dimensions

Width: 18cm
Height: 12cm
Weight: 0,4kg

Technical data

Light source: SMD – LED (integrated)
Watt: 4,5W
Lumen: 1x 290lm
Kelvin: 3000K
Color rendering (CRI): > 80 CRI
Lifetime: 30000H
Switching cycles: 15000x ON/OFF
