With the puristically designed PAROS pendant light, the up and down lighting comes to the fore and creates a particularly cosy lighting ambience. The height of the modern light can be changed at any time by simply pushing it up or pulling it down. Whether for work, games evenings with friends or dining - the different settings provide the ideal conditions for creating the right lighting mood. Thanks to the integrated SWITCH dimmer, you can relax in the evening with the brightness dimmed down or work with full light brightness (100%, 50% and 25%). The PAROS in brushed aluminium has a modern look and can be easily integrated into any interior. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
