With a combination of wood and plastic, MONTE is the perfect ceiling light for today's living space. The clearly arranged shade elements skilfully direct the light in all directions. In addition, the brightness and the light colour can be continuously adjusted by means of a remote control. Due to the wood-coloured optics, the lamp provides a warm atmosphere to feel good. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
