Cosy lighting and a visual highlight - the CLUSTER series combines both with its glamorous design. Whether mounted above the coffee table in the living room or above the dining table in the kitchen, the ceiling light conjures up fantastic and decorative lighting accents thanks to its unique frame. Various functions such as brightness or light colour can be conveniently adjusted from a distance using the remote control included in the scope of delivery. Alternatively, the integrated SWITCH dimmer allows the brightness to be adjusted in three stages (100%, 50%, 25%) using a conventional light switch. The memory and night light function round off the light perfectly. The white colour scheme attracts everyone's attention and adds variety to your home. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
