The ALETA ceiling light impresses with its minimalist and harmonious design that focuses on the essentials: the light. You can easily adjust the light colour and brightness to your liking using the remote control supplied. Alternatively, the brightness can also be adjusted in various levels using the conventional light switch. ALETA also has a practical night light and memory function that saves your last selected settings. The white finish on the inside of the otherwise minimalist, white ceiling light creates a glittering shimmer and spreads a pleasantly soft light in the room. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
