The TIGER ceiling light convinces all along the line with all its functions and its extraordinary design. By means of a remote control included in the scope of delivery, the light colour as well as the brightness can be controlled steplessly and individually. In addition, the TIGER inspires with an integrated RGBW Rainbow effect that reflects the rainbow. If required, the integrated night light can also be switched on. Thanks to its round design in white plastic, the luminaire can be integrated into all interior styles. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
