Interesting design and practical functions! The CARTIDA ceiling and wall light offers a wide range of possible applications and is visually appealing with a modern starlight cover, consisting of an inner illuminated surface and an outer illuminated ring. Both illuminated surfaces can be switched separately. Thanks to the integrated RGB colour changer, the outer illuminated ring can be individually adjusted in terms of colour, creating special lighting moments in your bedroom or living area. The remote control included in the scope of delivery can be used to conveniently adjust the light colour of the luminaire. The white plastic cover of the light easily blends in with existing interior fittings. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
