The practical FERNANDEZ set of 6 is perfect for the catering trade. Placed on the table, the lights provide cosy light and create a pleasant atmosphere without a socket or annoying cable. The set includes 6 individual lights and a compact charging station that allows all 6 lights to be charged at the same time. Thanks to the IP54 protection rating (splash-proof), the lights are equally suitable for indoor and outdoor use and can even withstand light rain showers with flying colours. The minimalist design in a classic shape turns the table lamps in matt white into a customisable decorative element. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
