The unusual lights in the PERUGIA range impress with their curved and eye-catching design. Consisting of a continuous light element, the ceiling light becomes a central highlight in your living area and also impresses as a sophisticated decorative element when switched off. The integrated SWITCH dimmer allows the light to be switched to three brightness levels (100%, 50% and 25%) using a conventional light switch. The discreet colour scheme in matt white rounds off the modern appearance perfectly. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
