The COURSE ceiling light can set stylish accents in your living room and bedroom. Cleverly designed and perfectly positioned, the light is a real eye-catcher in your living space. The COURSE consists of two rings that emit a pleasantly soft light. The integrated SWITCH dimmer allows you to choose between three different brightness levels using a conventional light switch. By graduating the light intensity from 100% to 50% and 25%, the luminaire can be used to create different lighting moods. The matt white surface gives the luminaire a modern design that can be found in numerous furnishing styles. The luminaire also features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. LED light sources also have a long service life, produce less heat and protect the environment.
