The CALIMERO pendant light can do more than just hang! The modern mix of materials creates a stylish and cosy ambience. The many small cut-outs in the lampshade create a pattern of light and shadow that provides decorative lighting accents in your home. The pendant light looks best in the dining room or living room above the table, in a high hallway or in a staircase with a spiral staircase. The lampshade is made from a metal louvre in matt black and, together with the wooden details, creates a modern vintage look. For energy-saving lighting, it is recommended to use an LED illuminant. These are an optimal alternative to conventional halogen lamps and stand for a high quality of light and energy savings of up to 80%. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.
