The decorative COUNTRY floor lamp brings a little country house flair into your home. The curved design makes it a beautiful decorative element that can also be combined with many classic furnishing styles. The floor lamp, which can be placed next to the sofa or in the entrance area, has a practical reading arm as a second light source that directs the light where it is needed. The rust-coloured design supports the design of the light and can be easily combined with existing interiors. The use of LED light sources is recommended for energy-saving lighting. These are an ideal alternative to conventional halogen light sources and offer high light quality and energy savings of up to 80%. With LED light sources, you also benefit from a long service life and low heat generation while protecting the environment.
