Funktioner:

- Justerbar i højden
- Loftsmontering
- IP20
- ekskl. lyskilde

There are countless ways to set lighting accents within your own four walls. The BUTTERFLY ceiling light, for example, impresses with trendy applications in a butterfly design. As soon as the light is switched on, it creates a cosy atmosphere and fills your home with a play of light and shadow. The light with a diameter of 50 cm and a maximum suspension length of 150 cm can be designed either plain and monochrome or with colourful accents using the enclosed butterflies. The colours range from white and chrome to purple and green butterflies. For energy-saving lighting, it is recommended to use an LED illuminant. These are an optimal alternative to conventional halogen lamps and stand for a high quality of light and energy savings of up to 80%. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.
