VENIDA impresses with its straightforward design, which deliberately dispenses with decorative and ornamental elements. The ceiling light complements any modern furnishing style and sets the perfect scene in your living area. The integrated SWITCH dimmer can be used to select between three different brightness levels (100% to 50% and 25%) using a conventional light switch, allowing you to create different lighting moods. Thanks to the chrome colour scheme, the light can be combined with many furnishing styles. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
