The TIBOR ceiling light impresses with its classic round, yet eye-catching design. Thanks to the starlight cover, the modern luminaire creates individual lighting effects and pleasant illumination of your living space. Even when switched off, the TIBOR is a real eye-catcher. The light colour and brightness can be conveniently adjusted using the remote control included in the scope of delivery. Alternatively, the brightness can be adjusted in three levels (100%, 50%, 25%) using an integrated SWITCH dimmer via a conventional light switch. The additional night light, memory and timer functions round off the TIBOR perfectly. The white plastic cover with starlight effect and chrome-plated wire-look elements blends in perfectly with existing colour schemes. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
