The ANTIBES series impresses in matt nickel with chrome applications and alabaster glass, which ensures shadow-free and glare-free vision. You can choose between a single or multi-flame version. The individual spots can be individually aligned so that different living areas or elements can be emphasised by directing the light beam. Depending on the size of the room, three, four or five-bulb versions are suitable for illuminating the entire living space. The five-bulb ceiling light has a width of 52 cm and a height of 23 cm. All commercially available light sources with an E14 socket and max. 28 watts can be used.
