The decorative design of the ANTIBES floor lamp harmonises with your living space and gives it a special touch. The two separately switchable flexible arms of the light are particularly practical, allowing you to conveniently adjust your personal light angle. The body is made of matt nickel. The glass shade is alabaster white. The use of LED light sources is recommended for energy-saving lighting. These are an ideal alternative to conventional halogen light sources and offer high light quality and energy savings of up to 80%. With LED light sources, you also benefit from a long service life and low heat generation while protecting the environment.
