Simple shapes and clear lines - with our minimalist lights, the light takes centre stage. The minimalist design of the BLAKE floor lamp ensures optimum lighting conditions. The light intensity and thus the mood of the ambience can be determined in 3 stages using the 4-fold touch on the top of the luminaire. In addition, the floor lamp can be charged via the integrated rechargeable battery using the USB connection and then emit a pleasant light for approx. three hours at maximum brightness. The design in matt black blends easily into any existing furnishing concept and can be combined with other colours. The luminaire also features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen light sources, up to 80% of energy costs can be saved. LED light sources also have a long service life, produce less heat and protect the environment.
