Experience a completely new TV or PC experience by immersing yourself in another dimension with the Ambiente LED Stripe SCREEN! The LED Stripe, perfect for a 21 monitor, opens up a wealth of impressive functions. The Dynamic Light function creates a fascinating atmosphere with pre-programmed, dynamic lighting scenarios that add fascinating lighting effects to the multi-coloured or monochrome mood lighting. The Stripe is also equipped with the Sound Control function. Using a built-in microphone, the RGB LEDs react to ambient noise in real time and transform music, films and gaming into captivating, rhythmically adapted light effects. All functions and the brightness can be conveniently controlled using the remote control supplied. The Stripe is kept in a plain black colour so that it blends unobtrusively into any furnishing style, especially when switched off. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
