Make a targeted touchdown with the FOOTBALL table lamp! The table lamp with 3D effect is not so much for targeted lighting as it is a real decorative secret weapon. The lamp in oval football design should be placed prominently in the interior, as it is a highlight when switched on and off. The conventional switch on the light base can also be used to adjust the colour thanks to an RGBW colour changer. So nothing stands in the way of a sports evening with special, decorative lighting! The clear acrylic light head is mounted on a black matt metal base and blends in seamlessly with existing interiors. In addition, the luminaires feature modern LED technology, which stands for a high quality of light. LED light sources are characterized by a long service life and low heat generation.
